Ancient wisdom meets Modern Science using Dimensional Therapy

What to heal profoundly and fast?

Dimensional Therapy (DT) is a practical and systematic approach to stabilising the human energy field. It provides a heart & soul connection for profound healing and the enhancement of wellbeing. The DT information is based on wisdom sourced from Ancient Egypt and combines modern energy medicine in Quantum Physics.

DT accesses the nano-subtle-energetic system of the body to identify imbalances in the energy field. Using the DT protocol and hands on healing techniques clients are re-stabilised in space and time for profound long term healing. DT assists clients to connect with the truth of who they are. This truth allows profound understanding, awareness and long lasting healing to occur, transforming clients to a new state of wellbeing.

Learn advanced intuitive practices to read and identify the subtle human energy system. Learn to draw the subtle energetic system of the body to uncover de-stabilisations. To then identify where in time and space the imbalances occur and apply the DT protocol to re-stabilise the client in their now time. Developed and researched over the past 11 years by Marcus Bird, DT is a profound healing modality. DT is the next evolution in healing ourselves, the planet and the universe.

"What a wonderful experience it was to receive a complementary healing session from Marcus Bird at the Light Workers Lunch .

I have a very open mind to try new and different forms of healing but I wasn't quite in tune with what was to be my outcome. At the end of a short session where by Marcus demonstrated his method of healing I was absolutely amazed with the disappearance of a 9.5mm lump on the base of my Achilles. It had been growing gradually over 6 months and was very sore to touch.

During the Healing session I felt a perfect calmness and then a sensation that all the negative energy was being drawn out and away from my body!!

After the Healing I spent 10 mins trying to find the sore lump on the back of my ankle.....I couldn't find it!

It was an amazing experience.

Thankyou"
